

I am requesting that you eliminate your desire to disband NJ's do not call program. This program has been extremely successful in eliminating unwanted phone calls into my home which I consider my private space that no company should enter without my request. These phone calls are a complete nuisance and unproductive. I refuse to do business over the phone and kindly tell them I am not interested and hang up without hesitation. So what is the purpose? On the other hand these companies are taking advantage of our seniors....is this what you wish to promote? Leave NJ's do not call list alone. Thank you Governor Codey!!
